

Hughenden Street Association has promoted the work of local food banks and places where people can access information to help them during the pandemic. We are now facing a cost of living crisis which has meant food and fuel poverty are real for far too many people and families.

This online webinar seeks to provide practical ways of coping with the cost of living crisis using sustainable food. Please share with your contacts.

Thank you.

Webinar

Cost of Living Crisis and Sustainable Food

Wednesday 27 April
10am - 11:30am

Households are living through an unprecedented cost of living crisis and sometimes it can feel that there is a tension between the dual aims of food partnerships in both striving for sustainable food and tackling food poverty. Join this webinar to learn the latest on the status of food security, current policies and local interventions from the **Sustainable Food Places** network to address the challenge of ensuring that everyone has access to healthy and sustainable food.
