The Hughenden Street Association vision

For community life in Hughenden Parish to become better connected, supportive/supported, stronger and friendlier so that all residents are involved in it to the level they desire. This means working to create safer and connected communities encouraging residents to identify the needs of their neighbours to help them engage in the community. The Association has a key role to play in helping develop links to existing facilities whilst also working to support community groups to reach out to as many residents as possible.

So much has been achieved by the Street Association with more still to do together. Take a look: <http://bit.ly/2Skst40> PLEASE SHARE THIS NEWSLETTER

HSA Pub Lunches

Feedback clearly indicates that the HSA pub lunches are a big hit across Hughenden. A variety of venues are used which ensure different experiences at each pub. The Harrow in Hughenden Valley was the first venue and has a regular booking of more than 20 people! Residents in Naphill/Walter's Ash now meet at the Spindle and Thread at Temple End, High Wycombe. The option here is to select from the usual range of pub food rather than a fixed menu. Finally, our newest venue is the Full Moon in Little Kingshill. You can, of course book a place at all 3 and you will be assured a warm welcome.

General Election 2024

For the next few weeks, we are going to be bombarded with information from the various political parties and as a non-political voluntary group, HSA won't be commenting on this aspect of the election. However, there are issues that affect our communities that whoever is in power at Westminster will need to address. We regularly promote the work of [CPRE](#), the Countryside Charity. Their priorities resonate and include:

Protect our green spaces and addresses the housing crisis by building in the right places - there are enough brownfield sites to accommodate most of the new housing we need.

Unlock the potential of our rooftops to deliver clean and sustainable electricity while upgrading our crumbling energy grid and protecting nature and our treasured landscapes.

Address the climate emergency with a long-term, cross-departmental vision for how we manage and use land across England and a planning system that has local communities at its heart.
