The Hughenden Street Association vision:

For community life in Hughenden Parish to become better connected, supportive/supported, stronger and friendlier so that all residents are involved in it to the level they desire. This means working to create safer and connected communities encouraging residents to identify the needs of their neighbours to help them engage in the community. The Association has a key role to play in helping develop links to existing facilities whilst also working to support community groups to reach out to as many residents as possible.

So much has been achieved by the Street Association with more still to do together. Take a look: <http://bit.ly/2Skst40>

Spotlight On: Zero Waste campaign

Adopt the Five Rs and save money!

Many of us are familiar with the three Rs: **Reduce**, **Reuse**, **Recycle**. Rachele Strauss at [Zero Waste](#) has added a couple more: **Refuse** and **Rot!**

Refuse is about not bringing the item home in the first place! And we are not just talking about clothes we buy and store in the wardrobe without actually ever wearing them. Research suggests, Britons has £10 BILLION worth of unworn clothes. Sound familiar? Half a million homes have 5- 10 games consoles. Really?

Annie Leonard, author of *The Story of Stuff* estimates that only 1% of what we buy is still in use 6 months later. Is that you?

Rot is the ultimate form of recycling. Composting even in a small garden or on a windowsill is possible. Wormeries are a great way to get a natural fertiliser for your house plants – for free! Rachele Strauss has produced a simple guide to get you started. Click [HERE](#). Alternatively go onto Google where you will find lots of advice.
